Q2, 2015 Class Descriptions

Body Burn

This class incorporates the basic moves and form for proper exercise technique that can be used in a gym or at home. Free weights, cardio and core will be the focus for an intermediate workout. Nothing is designed to be heavy, but you will feel the burn. Modifications to exercises and pace can be made for all fitness levels.

Tabata (NEW IN Q1)

Tabata is a form of high-intensity interval training (HIIT). It involves short bouts of explosive interval moves done for 20 seconds each for eight rounds, with a 10-second break between each round. It can burn a whopping 13.5 calories a minute—and double a person's metabolic rate for 30 minutes afterwards.

Chair Yoga— Get Fit While you Sit!

Just about any pose that can be done standing, sitting, or lying on a mat can be adapted to sitting on a chair. Everyone is welcome-, each pose will be presented in multiple levels of flexibility. The class will include breathing, meditation, stretching, strengthening. Bonus: you can participate in your work clothes! *Yogis who wish to practice on a mat are able to do so.*

Hip Hop Fitness (NEW IN Q1)

Hip-hop dance is a full-body, high energy exercise that is suitable for both beginners and advanced exercise enthusiasts. Hip-hop can be a diverse way for you to get the exercise you need each day. Each class will vary to ensure you receive optimal results.

Pilates

Pilates is a sequence of exercises performed on a mat using the abs, lower back and tush. Special attention is paid to detail, sequence, alignment and control of each movement. Virtually of the exercise are done in a low weight-bearing position allowing for little or no impact on the joints.

Stretch and Sculpt

Learn the basic body movements. Class begins and ends with stretching and slowly progresses into sculpting muscle groups. Low impact/low intensity— perfect for beginners!

Total Body Blast

Train every part of your body with free-weights, cardio and core exercises. Routines will change weekly, incorporating body resistance, circuit/station training, and high intensity cardio. Intermediate to an advanced fitness levels welcome.

Core & Cardio Blast (NEW IN Q1)

This class will focus on interval cardio work, combined with an emphasis on the core. You will experience a different workout each week and your own body weight will become the resistance factor. Some of the movement will be traditional while other intervals will be new to you. If you do not like the interval at the time, no problem. Things will soon change and you will be on to the next thing. An intermediate and advanced level of fitness will find the class challenging yet manageable.

Tummy and Tush

An incredible isometric workout for your tummy, tush, thighs and more. A blend of cardio and isometrics to ensure maximum results. This fat burning, calorie torching workout will leave you with sleeker thighs, a flatter tummy and a shapelier tush.

Yoga for Stress & Flexibility

Moves at a slower pace focusing basic poses and calming the mind and body. A few minutes of quiet meditation brings the class to an end. The student is revived and energized and ready to continue the work day.

Yoga for Strength

For students with some yoga experience. Moves at a slightly quicker pace and poses will build strength in the joints and all muscle groups- you might sweat a bit!

Zumba

Forget the workout, just lose yourself in the music and find yourself in shape at the original dance-fitness party. Zumba® classes feature exotic rhythms set to high-energy Latin and international beats.
